

Waste Site Reclassification Form

Date Submitted: 4/27/2004	Operable Unit(s): 200-SW-1	Control Number: 2004-056
Originator: CR Webb	Waste Site ID: UPR-200-E-106	
Phone: 373-5573	Type of Reclassification Action: Rejected: <input checked="" type="radio"/> No Action: <input type="radio"/> Interim Closed Out: <input type="radio"/> Closed Out: <input type="radio"/>	

This form documents agreement among the parties listed below authorizing classification of the subject unit as rejected, closed-out, or no action and authorizing backfill of the site, if appropriate. Final removal from the NPL of no action or closed-out sites will occur at a future date.

Description of current waste site condition:

This event occurred in September 1946. Contaminated towels showing radiation levels as high as 2.4 rads/hour (originally measured as 2.5 reps/hour) were found in one of the "burning grounds".

Basis for reclassification:

There is no visual evidence of this Unplanned Release. The location information contained in the 1946 occurrence report is vague. Only one burning ground is known to be in 200 East Area. This site will be consolidated with the 200-E Burn Pit.
